

NEW FOOT BALL RULES

Radical Changes Made in the Game

FOUR PLAYING PERIODS

The Playing Tackle Entirely Eliminated. Interlocked Interference Is Forbidden—Game Will Be Much Safer.

New York, Aug. 18.—After labor lasting nearly all summer, the football rules committee yesterday made public the rules which are to govern the game during the season of 1910. The changes adopted are revolutionary in character and calculated to minimize greatly the danger of fatal accidents.

For one thing, the time of play is divided into four periods of fifteen minutes' duration instead of two halves of 35 minutes each. The usual intermission of fifteen minutes is maintained between the second and third periods, but an intermission of three minutes only is allowed between the first and second and third and fourth periods.

At the beginning of the second and fourth periods the teams change goals, but the down, the relative spot of the down, the possession of ball and the distance to be gained remain as they were at the end of the preceding period.

The flying tackle has been entirely eliminated by the new rules, which provides that a player must have one foot at least on the ground when tackling an opponent.

The territory forward of the line of scrimmage is adjudged neutral for a distance of 20 yards, pending the completion of a forward pass or kick. A forward pass is not allowed if the ball crosses a line twenty yards in advance of the spot where it was put in play before touching the ground or a player.

In case of a kick, the players on the defense within the twenty yard zone must not interfere with the ends, or other players in any way, until their opponents have advanced 20 yards beyond the line of scrimmage.

Interlocked interference, that is, players of the side having the ball taking hold of each other, or using their hands or arms to grasp their teammates in any way, is forbidden, and it is also forbidden for any man on the side having possession of the ball to push or pull in any way the man running with the ball.

DEER JUMPS INTO BUGGY.

Kicks Vehicle to Pieces and Then Escapes to Woods.

Bangor, Me., Aug. 18.—Francis F. Mitchell, a New York man on a vacation trip in Maine, had the surprise of his life while driving along the road a few miles from here. He was sitting back in the seat, enjoying the beautiful scenery, when he was startled to see a frightened deer spring from the forest at the roadside and leap into the carriage, falling between the dashboard and the horse.

The latter kicked until the vehicle was demolished. After both the horse and deer had kicked about for three minutes, the child of the forest managed to extricate itself and then ran back into its retreat, apparently none the worse for its experience.

Regulate Benefit Societies.

Detroit, Mich., Aug. 18.—Discussion of a proposed bill to regulate and control fraternal benefit societies was the chief feature of yesterday's program of the national fraternal congress, in session here. Reports of committees were also further considered.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine smells like fish, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root. Have it sent, including many of the thousands of testimonials received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Report of the Coroner's Jury in Case of Providence Councilman.

Providence, R. I., Aug. 18.—Councilman Napoleon D. Abel of Woonsocket was held responsible for the death of James Mullarkey, who, with James O'Rourke, was run down and killed by an automobile in Lincoln on July 18 by coroner E. H. Lincoln in his report filed with the superior court yesterday. The decision is the result of an inquest of seven days. Coroner Lincoln states that Mullarkey came to his death by being struck and knocked down by a swiftly moving automobile on the night of July 18, driven by Abel, while under the influence of liquor. Both men were found lying by the roadside the following morning. O'Rourke was dead and Mullarkey fatally injured. After the fact that Abel's automobile was the one which ran the men down became known, Abel disappeared and went to Canada, but returned a short time ago and was arrested in this city. Harry Flynn, a Woonsocket bartender, who was with Abel in the automobile at the time, was also arrested and is awaiting trial.

Diamond Scintillations.

Baseball is a wonderful game and some wonderful men are playing it, as mark the following list of names gathered from big league rosters: Damm, Damm, Mee, Nee, Cree, Nee, Kay, Kay, Metz, Getz. If this collection ever gets together on one team, the fans will have to sneeze out the batting order.

Harry Wolter is playing a fast and steady game since returning to the Highland right field and is hitting well. His finger is still bad, however, and he has to be careful of ground balls.

Mordecai Brown's first appearance in the National league was in the spring of 1903, as a member of the St. Louis club, which purchased him from the Omaha club. A year or so later, he was traded, along with catcher O'Neill, to the Cubs.

Second baseman Baker of the Holyoke club has been bought by the St. Paul American association club to fill the vacancy made by the release of Zeke Widley.

Ada Pantin of Iowa City, Ia., threw a league baseball 187 feet at a baseball game there last Sunday. The previous record for a woman's throw was 180 feet, held by Myrtle McCarrell of Oak Park, Ill.

President Crowley of the Providence team has bought pitcher Randolph of the Troy team in the New York state league. He will join the Grays at Buffalo Friday.

Floyd Kroh of the Cubs is charged with having pitched for the Danville team of the Subequanna league against Bloomsburg last Sunday.

Fred Toney, premier pitcher of the Blue Grass league has been sold by the Winchester club to the Cubs. Toney's achievements include a 17-inning game, in which he struck out 19 batters. His home is in Nashville, Tenn.

Eddie Rolph, who is playing such star ball for the Toronto team in the Eastern league circuit, formerly worked in a mill in Manchester, N. H.

Bob Smith, the former Goddard twirler, is pitching good ball for the Fabyans. He held the strong Brighton Woods team down to two hits recently.

Gardner's injury will prove a serious handicap to the Red Sox. President Taylor is quoted as saying that Larry is one of the best second basemen he ever had on the Boston team.

The Detroit club has bought third baseman Westler from Wichita, Kan. "Only a remarkable string of victories will resurrect hope here," says the Detroit Journal. The Tigers will be away from home until September 3. George Mullin is not with the club on the trip. His daughter is seriously ill, and the club has given him permission to remain at home.

The Woodville Athletic club, which lost to the Italian Athletic club in this city recently, defeated a fast all-city team Tuesday by the score of 3 to 2. Gilman and Whitney were in the points for the Woodville team.

George Simmons, the former New Haven player, has been sent to the Rochester club by Detroit.

ABEL HELD RESPONSIBLE.

Report of the Coroner's Jury in Case of Providence Councilman.

SHERMAN SEES PRESIDENT

Discussed New York State Affairs for 3 Hours

INTEREST IN CONGRESS

Determination to Eliminate Cannon Is Still Firm—Vice President to Take a Hand in Reading Cannon Out.

Beverly, Mass., Aug. 18.—For nearly three hours yesterday afternoon President Taft and Vice President Sherman talked over the defeat of Theodore Roosevelt at the hands of the state Republican committee Tuesday and selection of Mr. Sherman as temporary chairman of the Saratoga convention. Mr. Sherman said he had no intention of withdrawing in favor of Mr. Roosevelt and he treated lightly the stories that there might be a fight to repudiate the action of the state committee in the convention.

The vice president also talked with the president regarding the congressional campaign. He wants the fight to be waged along the old lines.

At Mr. Sherman's solicitation President Taft agreed to point the way in the campaign by writing a letter which is to be made part of the campaign text book of the Republican campaign.

While the fight apparently is to be directed along the lines of the past, it can be stated authoritatively that the feature of the party reorganization plans, which calls for the retirement of Speaker Cannon, will be strictly adhered to. It is even said that Vice President Sherman, one of the staunchest supporters of the speaker ever had, has become reconciled to the fact that the speaker must go. A statement is being prepared by those close to the administration within which the attitude recently taken by Mr. Cannon in public interviews will be deplored and in which it will be made plain that there is no thought on the part of the many of his former supporters of naming him again.

Representative Anthony of Kansas, one of the two stand patters in the Kansas delegation who succeeded in slaving off defeat by the insurgents in the recent primaries in that state, also saw the president. Mr. Anthony supported Speaker Cannon but he, too said yesterday that he deplored the stand Mr. Cannon is taking. Mr. Anthony said that Speaker Cannon had almost been forgotten as an issue in Kansas until he came to the campaign and made himself one.

News from the California primaries of Tuesday, was awaited with great interest in Beverly. No comment was forthcoming, however, when word was received that Hiram Johnson, insurgent, had carried the state for the Republican nomination for governor by approximately 50,000 plurality.

Colonel W. R. Nelson of Kansas City, who in an interview here a few days ago asserted that if Colonel Roosevelt would run for president again he would sweep the country, motored through town yesterday. What do you think of Colonel Roosevelt now, in view of Tuesday's defeat? Do you still think he can 'come back?' the colonel was asked. "Not with those fellows down there," laughed Colonel Nelson, as he speeded away.

ROOSEVELT WILL NOT RUN.

Declares He Will Not Allow the Use of His Name in Governorship.

Oyster Bay, N. Y., Aug. 18.—Ex-president Roosevelt refused yesterday morning to add anything to his statement of the day previous, relative to the refusal of the Republican state committee to recommend him for the temporary chairmanship of the Saratoga state convention.

Col. Roosevelt made it clear that under no circumstances would he allow the use of his name, to be presented to the convention as a candidate for the governorship nomination. Reports from the California primaries which indicated that the progressives under the leadership of Hiram Johnson had won a victory were read by Col. Roosevelt with much interest.

He spent an hour yesterday morning dictating a magazine article. He said he had no intention of making a fight.

INSURGENTS SWEEP ALL CALIFORNIA

Hiram Johnson, Anti-Machine Candidate, Gets Nomination for Governor by About 50,000 Plurality, Apparently.

San Francisco, Aug. 18.—That California is insurgent in its Republican politics was proved Tuesday beyond question, when Hiram Johnson, leading exponent of anti-machine doctrine, swept the field in the direct primaries, winning his party's nomination for governor by a plurality that will border on 50,000 when all returns are in.

It is asserted that Johnson carried with him to victory insurgent congressmen. For United States senator to succeed Frank P. Flint, an advisory vote was recorded, and while the returns are far from complete, John D. Works, running with the same backing as that accorded Johnson, seems to have triumphed.

The other state offices also will be filled by men of insurgent tendencies if completed counts follow out the lines of the first returns.

The Democrats entered the primaries with perfect harmony as to their nominee, and Theodore Bell will make the fight against Johnson for election.

In the Republican gubernatorial fight, around which the whole contest centered, Johnson had an easy victory, his closest rival being Charles F. Curry, running on the strength of his own political machine. Alden Anderson, the regular, was hopelessly distanced, not securing a single county.

The question now before the voters of the state is the election itself. Democratic leaders are declaring supreme confidence in Bell's ability to defeat Johnson, basing their predictions on the splits in the Republican ranks. Bell and Johnson have made similar declaration of principles, and the battle will be one of personality largely. If the Republicans are able to harmonize before election day.

SIXTH PANEL APPROACHED.

Venue Men Tell of Efforts in Illinois Bribery Case.

Chicago, Aug. 18.—When the sixth panel of venemen called in the case of Lee O'Neil Browne reported yesterday, nearly all, as was the case with the fifth panel Tuesday, admitted that they had been "approached" with reference to their possible services as jurors. Judge Kersten called counsel for Browne into his chambers for consultation.

Tuesday Judge Kersten dismissed a panel of 72 who had been subpoenaed for the selection of a jury. This action came after several days' endeavor to get a jury to try Browne, Democratic minority leader of the Illinois legislature, on a charge of giving Representative Charles A. White a bribe to vote for William Lorimer for United States senator.

Judge Kersten pronounced the situation "deplorable."

The venemen were immediately taken to the office of State Attorney Wayman, where Judge Kersten asked each man by name if he had been called on by anyone in connection with his possible services as a juror. Nearly all answered in the affirmative.

BETTER ENTRY LIST THAN EVER BEFORE

Many Horses and Fast Ones Are Entered for Barre Races Next Friday and Saturday.

All that is required now for a successful meeting by the Gentlemen's Driving club next Friday and Saturday is fair weather. No better list of horses was ever secured for a race meeting in Vermont than has been named for these races, and all of the horses are now at the track. On Friday the 2:35 and 2:24 classes will be raced and on Saturday the 2:28, 2:20 and 2:14 classes. It is expected there will be from six to nine starters in each race, which is unusual for races in this section. The entries are as follows:—

FRAUD CASES TO BE PRESSED.

Eight Warrants Drawn in Illinois Central Matter, to Be Served at Once.

Chicago, Aug. 18.—After a series of secret conferences, in which the mass of evidence in the \$5,000,000 Illinois Central fraud cases was prepared for immediate presentation to a court, eight "informations" or warrants were drawn up Tuesday night, to be served, it is believed, at once. The men named in these documents are former officials of the road who are credited with responsibility for the frauds. Assistant State Attorney John Barnes is in readiness to take up his work as prosecutor as soon as the first arrest is made. "Several things may happen now almost any time," said the prosecutor Tuesday evening. "All that remains now is the winding up of the details before the trap is sprung on the men named in the informations."

SHOWS WAY TO CHEAP BEEF.

Butcher Says Repeal Tariff and Bring in Mexican Cattle.

Chicago, Ill., Aug. 18.—It is expected that resolutions demanding the repeal of the tariff duties on live stock and urging the cessation of the slaughter of lambs and young heaves will be adopted by the Master Butchers' association of America, which met in convention with President J. H. O'Neill of New York presiding.

According to J. T. Linahan, a delegate from Milwaukee, there is a tariff of \$12 a head on finished cattle from Mexico. "Take this duty off the millions of head of cattle that roam the plains of old Mexico, and we will have beef as cheap as ever in our history," declared the Milwaukee butcher.

Turns Copper into Iron.

Ottawa, Ont., Aug. 18.—L. R. Keogh of the Ottawa Collegiate institute staff announces that he has succeeded in transmuting copper into iron. He says the discovery is of no commercial value.

HORSE DISEASES

Troubles of the Respiratory Tract.

Roaring, High Blowing, Thick Wind, Grunting.—Roaring is a chronic condition in breathing, caused by some sort of obstruction to the respiratory tract; polyp, thickened membrane, deformed bones, paralysis of the nostrils may cause the condition called roaring, and paralysis of the muscles of the larynx, this last being the cause for most cases of roaring.

Sometimes nervous horses will snort and make a blowing noise, when first starting out, this being frequently the result from checking or forced cramping of the neck in some manner. Chronic roaring shows no evidence of any disease of the larynx, excepting a wasting condition of the muscles; when roaring actually becomes confirmed, no medicine will be of any use; but if the trouble is taken in hand early enough much may be expected from proper treatment. A skilled veterinarian may operate successfully. Electricity may be effective. Absorbent or blistering is sometimes used.

To demonstrate a case of true roaring, drive rapidly up hill with good load requiring more than ordinary exertion. Some cases require more work than others to show the full characteristic sound. The breathing becomes rapid, nostrils expanded and the horse is almost suffocated. Never breed from a roarer. It seems transmissible.

Grunting does not always mean a true "roarer." Still such a horse is to be looked upon with suspicion. Of course a horse afflicted with pleurisy, pneumonia, rheumatism, urinary and kidney trouble, may grunt when suddenly moved about or started up, but this circumstance does not indicate the "grunter"; work him out by extra driving up hill with a load, testing his wind for signs of the roarer. Of course, you would not try the sick horse for this purpose.

Sometimes roaring is confounded with high blowing. The latter is purely a nasal sound, nothing like roaring, and it is not a disease, just a habit. They snort stop high blowing if put to work. Whistling is only another sound of the roarer, although many horses affected with sore throat or inflamed larynx produce a whistling sound when breathing, but upon recovery this peculiar noise in breathing passes away. So, too, thick wind is another name for roarer, or else it is connected with heaves, while horses too fat, pot bellied, from too much hay feed, horses not exercised enough, snore with foal, these all breathe in a manner to be styled thick wind, but if the cause is removed the breathing becomes normal.
